

How's Business?

Clay Dowling,
Ghost Transportation Services

1 How's Business?

Parts of our business are very strong and parts are challenged. The parts change places over time, this has been the same for our 30 years. The constant is change and the changes are faster, if you ask me tomorrow you may get a different response.

2 How do you define success?

The accomplishment of a purpose or goal. I have many purposes and goals; one that is near and dear: that every staff member who chooses to leave does so better than when they came and those that choose to stay continue to grow.

3 How do you survive and/or grow during challenging times?

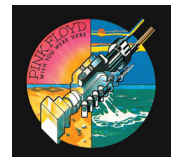

2015 witnessed Ghost Transportation Services being recognized by Canadian Business and Profit magazines as one of the Top 500 Canada's Fastest Growing Companies.

Our growth and sustainability is accomplished by determining the need, exceeding the need and fulfilling the commitment.

Ignoring or adapting to those things we can't change and creating and embracing those things we can change that provide improvement.

4 Favorite song of all time?

Who has one? "Thank You" Led Zeppelin to my wife and "Welcome To the Machine" Pink Floyd for life.

Ghost Transportation Services has been offering one step transportation solutions to customers throughout the world since 1987. Clay Dowling is the President & CEO.
